

Payton Kramer

Southend Mature Student officer report

09/09/21

WHO ARE?
Mature Students

Introduction

Hey guys! My name is Payton Kramer, and I am your elected Mature Student Officer for the 21/22 academic year. I am a 23-year-old student from America who direct entered into Year 2 in International Business and Entrepreneurship. This will be my third and final year at the uni. I am so excited to meet you guys and build this network together with you.

Goals/expectations in my role

My Goal is to educate students on what a mature student is and break the negative stigma associated with it. I would like to delve more into looking for extra funding for mature students as well as welcome any students who have children to create events where they are welcome. I plan to be there for students with concerns as a mature student as well as to hear your personal opinions on what we need to change to make your time at Southend the best time.

What have I done this month?

- I have created an Instagram for me and my fellow officers under the name: SouthendSCOOfficers where you can follow us for up-to-date information
- Jeni from SU engagement and I met to discuss our Mature Student Networking Mixer to take place on the 7th of October in the SU Lounge at 4PM
- Published a small marketing post to explain what Mature students are as well as sent it to marketing to be spread for all students to see.
- Booked and planned my stall for Mature students to meet me for Fresher's Fair

Did I manage to meet my goals?

I think it was a job well done as we are finishing up training this month. My plan is to start researching into the possibilities of funding in the next upcoming months as well.

What can you expect in the next month?

You can expect to see ME! Many times, in this next month. We will be having our Mixer as well as you can visit my stall during Fresher's Fair. You can also expect some emails from me if you join our Mature Network on my Officer hub on Essexstudent.com/Southend
